DIM SUM

The delicate elegance of steam cooking.

Dim Sum comprises food bites, sweet and salty, that were eaten by the travelers and the merchants along the "Silk Road". In China it is a long-lasting tradition and Dim Sum has become a food that "touches the heart" and that should be peacefully shared with friends.

This is exactly what Dim Sum is: nice and choreographic food bites that first touch with kindness your heart and then conquer your mouth and fill your stomach, satisfying both your body and your spirit.

On the tank there is a stainless-steel lid with big holes and the bamboo baskets will be placed upon these holes. Steam exits only from these holes and that allows a uniform and delicate cooking of the food.

***Available in electric version, depth 700 – 900 mm.,
drop-in version and upon request.***
